

REMARKS

Claims 1-6, 9, 12-16, 19, 21-26, 29, and 32-34 are pending in the present application. Claims 1-6, 12-16, and 21-26 are allowed; claims 7-8, 10-11, 17-18, 20, 27-28, and 30-31 are canceled; claims 1, 9, 12, 16, 19, 21 and 29 are amended; and claim 32-34 are added. Reconsideration of the claims is respectfully requested.

Support for claim 32 is found in the specification on page 14, line 12 through page 17, line 17. Specifically, support for the first feature in the claim is found on page 14, line 12 through page 15, line 3; for the second and third feature on page 15, line 5 through page 16, line 13; and the fourth and fifth features on page 16, line 15 through page 17, line 17. Support for claim 33 is found in the specification on page 15, line 5 through page 16, line 13. Support for claim 34 is found on page 8 lines 15-30. No new matter is added by the new claims.

Amendments were made to the specification to correct errors and to clarify the specification. No new matter has been added by any of the amendments to the specification.

I. Interview Summary

Applicants thank the examiner for the interview held on September 27, 2005 between the examiner, Theodore D. Fay III, reg. no. 48,504, and the undersigned agent. The new claims were discussed. No agreement was reached.

II. Allowable Subject Matter

Claims 1-6, 12-16 and 21-26 are allowed.

III. Double Patenting

The examiner advised that "should claim 30 be allowable, claim 31 will be objected to under 37 CFR 1.75 as being a substantial duplicate thereof." Claim 31 has been cancelled, thereby rendering the rejection moot.

IV. 35 U.S.C. § 102, Anticipation: Claims 7-8, 11, 17-18, 20, and 27-28

The examiner rejected claims 7-8, 10-11, 17-18, 20, and 27-28, and 30-31 under 35 U.S.C. § 102(e) as anticipated by *Mauro, II, Changing the Operational Mode of a Wireless Communication Device Using a Voice Service Option*, U.S. Patent Publication No. 2004/0203937 (October 14, 2004) (hereinafter "*Mauro*"). These claims are cancelled, thereby rendering the rejection moot.

V. Objection to Claims: Claims 9, 19 and 29

The examiner has stated that claims 9, 19 and 29 were objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. These claims have been amended accordingly.

VI. Objection to Claims: Claim 28

The examiner has stated that claim 28 was objected to as it should be dependent upon claim 27 instead of claim 25. Claim 28 has been canceled, thereby rendering the objection moot.

VII. New Claims 32-34

Applicants have added claim 32 to this application. Claim 32 includes patentable features also present in claim 1. Thus, claim 32 should also be allowable. Applicants have also added claims 33 and 34, which are patentable at least by virtue of their dependence on claim 32.

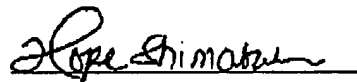

VIII. Conclusion

It is respectfully urged that the application is in condition for allowance.

The examiner is invited to call the undersigned at the below-listed telephone number if in the opinion of the examiner such a telephone conference would expedite or aid the prosecution and examination of this application.

DATE: October 12, 2005

Respectfully submitted,

Hope Shimabuku
